

Requirements for Partner Government Agency Information in ACE & Methods for Submission

United States government agencies with a role in regulating international trade are working together to meet a White House Executive Order mandating the completion by 2016 of a Single Window for trade submissions of required import information. As part of this effort, CBP is transitioning core trade processing capabilities into the Automated Commercial Environment (ACE). In order to reach the 2016 deadline, CBP has established a transition schedule for the submission of electronic entry and entry summary filings beginning November 1, 2015.

On February 29, 2016, CBP published a General Notice in the Federal Register, announcing that, effective March 31, 2016, the use of ACE is mandatory for electronic entry summary filings for entry types 01, 03, 11, 23, 51, and 52 that do not have Partner Government Agency (PGA) data requirements, and for APHIS (Lacey Act) and NHTSA electronic entry/cargo release and electronic entry summary filings that do not have other PGA data requirements.

In the same General Notice, CBP announced that, effective May 28, 2016, the use of ACE is mandatory for electronic entry/cargo release filings for entry types 01, 03, 11, 23, 51, and 52 that do not have PGA data requirements, and for electronic entry/cargo release and electronic entry summary filings for entry type 06, including those with APHIS (Lacey Act) or NHTSA data requirements, unless paired with other PGA data on the same transaction.

Prior to the mandated use of ACE on March 31 and May 28, filers may use ACE for the entry types listed above. Once the pilots are concluded, electronic filers will be required to use ACE to submit PGA data in accordance with CBP and PGA regulations or other published requirements.

CBP envisions that in the summer of 2016 the use of ACE will also be required for electronic entry/cargo release filings for the following entry types: 02, 07, 12, 21, and 22, and electronic entry summary filings for the following entry types: 02, 07, 12, 21, 22, 31, 32, 34, and 38.

CBP plans to promulgate new regulations (currently planned to be effective by the end of 2016), which will require electronic entry filers to use ACE to transmit electronically all CBP and PGA entry data and/or forms, unless otherwise exempt. When the new regulations become effective, hybrid entry filings, i.e., those that contain both electronic and paper submissions, will no longer be accepted for CBP and all PGAs (FDA, NHTSA, AMS, APHIS (Lacey), APHIS Core, ATF, CDC, DCMA, DDTC, DEA, E&C, EPA, FCC*, FSIS, FWS, NMFS, NRC, OMC and TTB) unless a specific exemption applies. Until the effective date of the new regulations, i.e., the interim period, non-pilot participants may submit information via the Document Image System (DIS).

NOTE: The following list identifies agency forms and/or data elements required at time of entry and specifies whether the forms and/or data may be submitted via the PGA Message Set or Document Image System (DIS). In addition, this list identifies the forms and documents which will continue to remain in paper form. Interested parties should continuously review this list for changes.

To transmit required forms and/or data, filers must adhere to the rules, terms and conditions of the pertinent ACE test, the PGA Message set chapter of CBP and Trade Interface Requirements (CATAIR) and/or the technical requirements for transmissions using DIS. Any agency specific requirements are also reflected in the CATAIR supplemental implementation guides (IGs). CATAIR and IG information is available at: <http://www.cbp.gov/trade/ace/catair>.

Trade is advised to subscribe to CSMS and continue to check cbp.gov for the latest information pertaining to this list. Please visit the CBP.gov website for links to applicable ACE Federal Register Notices and other PGA message set and DIS related documents.

* FCC Form 740 is required until July 1, 2016, when FCC's waiver provision takes effect. Until that date, filers can submit FCC-required information electronically with CBP in either ACS or ACE. After July 1, 2016, the Form will be suspended and the requirement waived until December 31, 2016. Filers may also continue submitting FCC data as part of an ACE entry summary filing.

Requirements for Partner Government Agency Information in ACE & Methods for Submission

CBP plans to issue new regulations, currently planned to be effective by the end of 2016, which will require electronic entry filers to transmit all CBP and PGA entry data and/or forms via ACE, unless otherwise exempt. When the new regulations become effective, entry filings combining paper and electronic submissions will no longer be accepted unless a specific exemption applies. CBP envisions that all related ACE and ITDS PGA message set pilot tests will conclude when the new regulations become effective, at which time this document will be revised to reflect whether DIS will cease to be an option for some of the PGA forms.
